A mammoth storage house, of which cials at the head. It was contended East Liverpool has so long stood in then and has since been proven to the in the next few months. The News was given the positive assurance this morning by M. F. Davis, one of the promoters of the enterprise. that the entire matter now rested with the city council, as the interested capitalists would begin work at once if the necessary grants were secured.

From the sentiment of the members of council, which has been given general expression within the past few days there is no doubt they will look favorably upon the question when it is brought before them in a formal way. For some time after the project was mentioned there seemed to be opposition to the city granting concessions for switch room and other points for the reason that officials of the Pennsylvania railroad were said to be behind the enterprise.

In view of the recent long-drawn-out controversy with the railroad company over the double tracking privileges and the alleged selfishness of the corporation, a large number of citizens did not take kindly to the storage house proposition with the Pennsylvania offi-

At Wheeling for the Alleged Enticing of Sarah Turner to That City-Several Persons Who Must Face Charges of Theft.

Without doubt the present week has been a record breaker in police circles. Commencing early on Monday morning and continuing every day un til late at night, Mayor Weaver has had the largest number of serious cases before him ever dealt with in the same length of time by a former chief executive. Though a strenuous effort has been made by the mayor to clear the docket in anticipation of another flourishing week, it was an impossibility and this morning when he appeared at his office an even dozen cases were to be acted upon and before he had time to review them another case involving four persons was entered.

Officer Dawson returned late last evening from Wheeling and Steubenville, where he placed under arrest George McAvoy and Homer Murphy who it is alleged were accomplices in the luring away of Sarah Turner. The couple who held a joy ous reunion here are the children of Mrs. William Hayes, who died as the result of injuries received in a runaway accident on Fifth street in East Liverpool in 1892.

J. H. Donovan, of Cleveland, came to Salem Wednesday evening and registered at the Falkenberg hotel. There he discovered that Miss Frances Hayes, a dining room girl, was his half sister whom he had not seen for 12 years. He had been looking for her a great portion of this time and had spent much money and time in travel trying to locate her. Through her he discovered a clue to the whereabouts of other relatives.

The romance began years ago in Kansas, when John Donovan, father of the Cleveland man, was killed in 1870, during the Cherokee outbreak. He left a wife and a young son. Mrs. Donovan later came east, located in

************ BOYS LEFT TOWN ON A TRAMPING TRIP

Runaways From the East End Left on Freight Train For Parts Unknown.

Many homes in the Fast End are addened today on account of the escapade of a dozen or more young boys who left yesterday on a freight train or a tramping trip over the country, Some of the parents are in distress. fearing that if their sons escape bodily harm, their young lives will be ruined by the corrupting influences with which they will necessarily come in contact.

It was learned this morning that the trip has been in contemplation for several months, but nobody suspected that the start would be made yester. day. Some of the boys have been saving money for the trip for some time. The money will be used only in cases of necessity as it is the intention to beat freight trains and beg as far as possible.

The runaways boarded an east bound freight train between East Liverpool and East End yesterday afternoon and when the train passed through East End, some of them were seen in a box car. Nothing has been heard from them since.

It is alleged by some of the parents that a grown man by the name of "Denver" or Henry Green is their ring-leader and they do not hesitate to say that charges will be preferred against him if he comes within the clutches of the law. It is claimed Green organized the party and strengthened the faltering nerve of some of S. Board. the younger boys.

The police have been notified of the affair, but as the boys are now miles away, there is little likelihood of their being apprehended.

This property and the wells are owned by Dr. R. J. Marshall, who has let the contract to Ormes Bros. for the work. Several weeks ago the News Review published an item about these wells, drilled a quarter of a century ago, making a strong showing of oil and that they would be cleaned and tested.

EAST END

...... BOYS LEFT TOWN ON A TRAMPING TRIP

Runaways From the East End Left of Freight Train For Parts Unknown.

Many homes in the East End are addened today on account of the esapade of a dozen or more young boys who left yesterday on a freight train for a tramping trip over the country. Some of the parents are in distress, earing that if their sons escape bodily harm, their young lives will be ruined by the corrupting influences with which they will necessarily come in contact.

It was learned this morning that the trip has been in contemplation for everal months, but nobody suspected that the start would be made yesterday. Some of the boys have been saving money for the trip for some time. The money will be used only in cases of necessity as it is the intention to beat freight trains and beg as far as possible.

The runaways boarded an east bound freight train between East Liverpool and East End yesterday afternoon and when the train passed through East End, some of them were seen in a box car. Nothing has been heard from them since.

It is alleged by some of the parents that a grown man by the name of "Denver" or Henry Green is their ring-leader and they do not hesitate to say that charges will be preferred against him if he comes within the clutches of the law. It is claimed Green organized the party and streng thened the faltering nerve of some of the younger boys.

The police have been notified of the affair, but as the boys are now miles away, there is little likelihood of their being apprehended.

OLD WELLS WILL BE CLEANED AND REPAIRED

Holes Drilled Along Dry Run a Quarter of a Century Ago Are Showing Oil.

For the first time in many years oil perations are to be commenced within the city limits and several old wells along Dry Run hollow, between the street car and railroad tracks, are to be cleaned out in the hope that they will again become producers. This property and the wells are owned by Dr. R. J. Marshall, who has let the conract to Ormes Bros. for the work Several weeks ago the News Review published an item about these wells, drilled a quarter of a century ago, making a strong showing of oil and that they would be cleaned and tested.

Spain, in her recent war with this country, learned a good deal about the greatness of our army and navy. It is also evident that she learned something about the source of our industrial greatness and commercial prosperity. A dispatch from Madrid states that the minister of public works has decided to ask an appropriation for the purpose of sending 100 Spanish workingmen here, to remain for two years and study American industrial methods. Spain was once mighty, but she has fallen behind other nations in the essentials of progress. She can learn a good deal that is worth knowing from the United States, and our people will be very glad to give the instruction and information calculated to help her along. When Spain becomes more interested in industry than in bull-fighting she may begin to

Mayor Mercer Failed to Find Enough Evidence to Justify a Conviction.

James Black, Willis Clark and John Evans were arraigned in the court of Mayor Mercer this morning, all being compelled to answer to charges of disorderly conduct. The arrests were the outcome of a little trouble which occurred on February 29, in which all three were involved. Clark and Black eemed to be the aggressors and Mr. Evans was simply endeavoring to hold his own in an argument started by the other two men.

There was some feeling between the men, which has dated back to the time when the trust proposed to reduce the wages of the men in the mill. WOOD CONFIRMED.

Becomes Major General After Long Fight in Senate.

Washington, March 19 .-- By the ac Wood became a major general, taking the rank from Aug. 8, 1903, the day President Roosevelt made the promotion. The contest against his con firmation has been a notable one, beginning Nov. 19, 1903, soon after congress convened in special session, until now, when by a vote of 45 to 16 the nomination was confirmed.

The late Senator Hanna was recog nized as the leader of the forces opposed to General Wood and had it not been for his death before the dispos' tion of the case it is conceded that the vote would have been much closer.

Dependent upon the confirmation of General Wood were 167 promotion for other army officers. These have been held up since their nominations were made by the president, but now will be confirmed without opposition.

For Fifteen Months the Firm Had Been Bulling Market but Lately

New York, March 19 .- Daniel J. Bully, the cotton operator who has for 15 months been the biggest figure in the cotton markets of the world and who has "bulled" cotton from 7 cents a pound to 17, has announced his inability to make good his engagements on the New York Cotton Exchange. Within a few moments cotton fell nearly \$13 a bale from the highest figures of the day.

Business had been transacted in the usual way throughout the morning session with no indication of any unusual event. Shortly after the noon session, however, there was a lull in the pit and at about five minutes after 2 o'clock the announcement of the suspension was made by Superintendent King, who read from the rostum this notice from Daniel J. Sully & Co.:

"We regret that we are unable to meet our engagements and will therafore have to suspend."

Messenge soon were rushing in and out of the building with orders to sell or buy, telephone booths were besieged and telegraph offices were flooded with dispatches.

It was estimated that something like three-quarters of a million bales of cotton was traded in during the 20 minutes that followed the announce ment and that of this upwards of haif a million bales represented the selling out of men whose margins have been nearly or quite wiped out.

Violent Reaction Ensues.

The market steadied after about 23 minutes and then there was a sudden upward shoot of about an even hundred points. This sharp rise was brought about by the buying of brokers and speculators, who saw that the market had slumped too far and would react just as it did. A part of the excitement on the floor of the exchange was caused by the scramble of brok ers who wanted just such bargains and had to fight to get in the ring to get them. The buying rush was almost as exciting and just as noisy, if not more so, as the panic.

On the announcement of the failure the representatives of the newspapers hurried to see Mr. Sully for the purcounty for national delegates. The latter chose W. L. Russell of Lima and Judge H. M. Candidate Is Named For the Next General Assembly.

W. B. M'CORD ANNOUNCES FOR REPRESENTATIVE

Newspaper Man Who Five Years Ago Came Near Winning for the Legislature, Will Again Be a Candidate for Representative.

If this is an "off year in Columdana county politics, it will be different next year. There will be several county offices to fill, a state senator to elect from the Twentiethdidate for a second term, which it is the custom to concede without opposition, and D. W. Crist, having served his second term, a new man will be nominated to succeed him. For this place W. B. McCord, of Salem, will be a candidate.

It will not be a matter of news known citizen of East Liverpool, is to the legislature next spring, to succeed Hon. D. W. Crist. One year ago, alpublicans generally throughout the county, to again enter the contest for the place against Mr. Hill, he declined to do so, preferring to await another occasion rather than to renew an old political fight.

It will be remembered that in 1899 Mr. McCord was a very close second to Mr. Buell, who won with less than a hundred plurality; in 1901 Mr. Crist (having stepped aside for Mr. Buell), won out for his second term over Messrs. Hill and McCord, and in 1903 Mr. McCord gave way for Mr. Hill, as already stated. Now it is the very generally expressed opinion that the fourth man of this quartet who entered the race together five years ago should not, and probably will not, have any opposition next spring. However, while Mr. McCord should be happy were such to be the case, yet he recognizes the fact that any good Republican has the right to seek any office in the gift of the people for which he is fitted and to which he is eligible.

Mr. McCord has been a voting and working Republican in Columbiana county for almost a third of a century. He has spent 32 years in almost continuous editorial work in the county-seven years in Wellsville, 22 years in East Liverpool and three in Salem, where he now occupies the position of editor of the Daily News and Republithorough acquaintance with the people of the county, with his extended knowledge of men and affairs should go far toward fitting him for the position of legislator, which he will seek next year, and to which there is scarcely room for doubt he will be nominated and elected.

They Will Marry.

Harry Emmerling and Miss Virgie Wilcher, known as Peterman or Bucey who figured in a sensational episode in police court the first of the week. have decided to get married and the ceremony will likely take place tomorrow, Rev.
